

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

Form 10-Q

(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2026

or

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-32172

XPO

XPO, Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

Five American Lane

Greenwich, CT

(Address of principal executive offices)

03-0450326

(I.R.S. Employer
Identification No.)

06831

(Zip Code)

(855) 976-6951

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common stock, par value \$0.001 per share	XPO	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer	☒	Accelerated filer	☐
Non-accelerated filer	☐	Smaller reporting company	☐
		Emerging growth company	☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

As of July 24, 2026, there were 117,086,465 shares of the registrant's common stock, par value \$0.001 per share, outstanding.

XPO, Inc.
Notes to Condensed Consolidated Financial Statements
(Unaudited)

1. Description of Business and Basis of Presentation

Nature of Operations

XPO, Inc., together with its subsidiaries (“XPO,” “we” or the “Company”), is a leading provider of freight transportation services. We use our proprietary technology to move goods efficiently through our customers’ supply chains in North America and Europe. See Note 2—Segment Reporting for additional information on our operations.

Basis of Presentation

We prepared our Condensed Consolidated Financial Statements in accordance with U.S. generally accepted accounting principles (“GAAP”) and on the same basis as the accounting policies described in our Annual Report on Form 10-K for the year ended December 31, 2025 (the “2025 Form 10-K”). The interim reporting requirements of Form 10-Q allow certain information and note disclosures normally included in annual consolidated financial statements to be condensed or omitted. These Condensed Consolidated Financial Statements should be read in conjunction with the 2025 Form 10-K.

The Condensed Consolidated Financial Statements are not audited but reflect all adjustments that are of a normal recurring nature and are necessary for a fair presentation of the financial condition, operating results and cash flows for the interim periods presented. Operating results for the six months ended June 30, 2026 are not necessarily indicative of the results that may be expected for the year ending December 31, 2026.

Within our Condensed Consolidated Financial Statements and the accompanying notes, certain amounts may not add due to the use of rounded numbers. Unless otherwise indicated, percentages presented are calculated from the underlying numbers in millions.

Restricted Cash

As of June 30, 2026 and December 31, 2025, our restricted cash included in Other long-term assets on our Condensed Consolidated Balance Sheets was \$16 million and \$20 million, respectively.

Trade Receivables Securitization and Factoring Programs

In our European Transportation business, we sell certain of our trade accounts receivable under securitization and factoring programs. We use trade receivables securitization and factoring programs to help manage our cash flows and offset the impact of extended payment terms for some of our customers.

The maximum amount of net cash proceeds available at any one time under our securitization program, inclusive of any unsecured borrowings, is €200 million (approximately \$228 million as of June 30, 2026). As of June 30, 2026, the maximum amount available under the program was utilized. The weighted average interest rate was 3.69% as of June 30, 2026. In January 2026, the program was amended to extend the maturity date through March 2029.

Information related to the trade receivables sold was as follows:

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Securitization programs				
Receivables sold in period	\$ 462	\$ 495	\$ 944	\$ 920
Cash consideration	462	495	944	920
Factoring programs				
Receivables sold in period	23	14	43	37
Cash consideration	22	13	41	35

Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The levels of inputs used to measure fair value are:

- Level 1—Quoted prices for identical instruments in active markets;
- Level 2—Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are observable in active markets; and
- Level 3—Valuations based on inputs that are unobservable, generally utilizing pricing models or other valuation techniques that reflect management’s judgment and estimates.

We base our fair value estimates on market assumptions and available information. The carrying values of cash and cash equivalents, accounts receivable, accounts payable, accrued expenses and current maturities of long-term debt approximated their fair values as of June 30, 2026 and December 31, 2025 due to their short-term nature and/or being receivable or payable on demand. The Level 1 cash equivalents include money market funds valued using quoted prices in active markets and cash deposited for the securitization program.

The fair value hierarchy of cash equivalents was as follows:

(In millions)	Carrying Value	Fair Value	Level 1
June 30, 2026	\$ 270	\$ 270	\$ 270
December 31, 2025	285	285	285

For information on the fair value hierarchy of our derivative instruments and financial liabilities, see Note 5—Derivative Instruments and Note 6—Debt, respectively.

Accounting Pronouncements Issued but Not Yet Effective

In May 2026, the Financial Accounting Standards Board (“FASB”) issued ASU 2026-02, “Environmental Credits and Environmental Credit Obligations (Topic 818).” This ASU establishes recognition, measurement, presentation and disclosure requirements for (i) environmental credits and (ii) compliance obligations that may be settled by using environmental credits and is effective for annual and interim periods beginning in 2028. Early adoption is permitted. We are currently evaluating the impact of the new standard.

In December 2025, the FASB issued ASU 2025-10, “Government Grants (Topic 832) – Accounting for Government Grants Received by Business Entities.” This ASU provides recognition, measurement and presentation guidance for government grants received by business entities and is effective for annual and interim periods beginning in 2029. Early adoption is permitted. We are currently evaluating the impact of the new standard.

In September 2025, the FASB issued ASU 2025-06, “Intangibles – Goodwill and Other – Internal-Use Software (Subtopic 350-40).” The ASU updates the guidance on accounting for internal-use software costs by (i) removing all references to software development stages, and (ii) requiring that an entity capitalize software costs when both management has authorized and committed to funding the software project, and it is probable that the project will be completed and the software will be used to perform the function intended. This ASU is effective for annual and interim periods beginning in 2028. Early adoption is permitted. We are currently evaluating the impact of the new standard.

In November 2024, the FASB issued ASU 2024-03, “Income Statement – Reporting Comprehensive Income – Expense Disaggregation Disclosures (Subtopic 220-40).” The ASU requires new tabular disclosures disaggregating prescribed expense categories within relevant income statement captions. In addition, the ASU requires disclosure of the total amount of selling expenses and, in annual periods, an entity’s definition of selling expenses, among other disclosure requirements. This ASU is effective for annual periods beginning in 2027, and for interim periods beginning January 1, 2028. Early adoption is permitted. We are currently evaluating the impact of the new standard, which is limited to financial statement disclosures.

2. Segment Reporting

We are organized into two reportable segments: North American LTL, the largest component of our business, and European Transportation.

In our North American LTL segment, we provide shippers with geographic density and day-definite domestic and cross-border services to the U.S., as well as Mexico, Canada and the Caribbean. Our North American LTL segment also includes the results of our trailer manufacturing operation.

In our European Transportation segment, we serve an extensive base of customers within the consumer, trade and industrial markets. We offer dedicated truckload, LTL, full truckload brokerage, warehousing, managed transportation, last mile, freight forwarding, and multimodal solutions.

Corporate includes corporate headquarters costs for executive officers and certain legal and financial functions, and other costs and credits not attributed to our reportable segments.

Our chief operating decision maker (“CODM”) is our chairman and chief executive officer. Our CODM regularly reviews financial information at the operating segment level to allocate resources to the segments and to assess their performance. We include items directly attributable to a segment, and those that can be allocated on a reasonable basis, including corporate costs, in segment results reported to the CODM. We do not provide asset information by segment to the CODM.

Our CODM evaluates segment profit (loss) based on adjusted earnings before interest, taxes, depreciation and amortization (“adjusted EBITDA”), which we define as income before debt extinguishment loss, interest expense, income tax provision, depreciation and amortization expense, legal matters, transaction and integration costs, restructuring costs and other adjustments.

Our CODM uses adjusted EBITDA to allocate resources, including property and equipment and financial or capital resources, to the segments and to assess their performance by monitoring budget-to-actual and year-over-year variances.

[Table of Contents](#)

The following tables present revenue and significant segment expenses that are included within adjusted EBITDA:

(In millions)	Three Months Ended June 30, 2026

Net Income	\$ 162	\$ 106	\$ 263	\$ 175

(1) Reflects the settlement of claims against certain truck manufacturers related to purchases by our European Transportation segment covering periods prior to our acquisition of Norbert Dentressangle SA in 2015.

The following table presents depreciation and amortization expense by segment:

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Depreciation and amortization expense				
North American LTL	\$ 100	\$ 96	\$ 197	\$ 185
European Transportation	33	34	66	67
Corporate	1	1	2	2
Total	\$ 134	\$ 131	\$ 265	\$ 254

As of June 30, 2026 and December 31, 2025, we held long-lived tangible assets outside of the U.S., including right of use assets, of \$843 million and \$844 million, respectively.

3. Revenue Recognition

Our revenue disaggregated by geographic area based on sales office location was as follows:

	Three Months Ended June 30, 2026		
<i>(In millions)</i>	North American LTL	European Transportation	Total
Revenue			
United States	\$ 1,398	\$ —	\$ 1,398
North America (excluding United States)	30	—	30
France	—	364	364
United Kingdom	—	327	327
Europe (excluding France and United Kingdom)	—	235	235
Total	<u>\$ 1,428</u>	<u>\$ 927</u>	<u>\$ 2,355</u>

	Three Months Ended June 30, 2025		
<i>(In millions)</i>	North American LTL	European Transportation	Total
Revenue

United States	\$ 2,600	\$ —	\$ 2,600
North America (excluding United States)	57	—	57
France	—	706	706
United Kingdom	—	632	632
Europe (excluding France and United Kingdom)	—	456	456
Total	<u>\$ 2,657</u>	<u>\$ 1,794</u>	<u>\$ 4,451</u>

	Six Months Ended June 30, 2025		
<i>(In millions)</i>	North American LTL	European Transportation	Total
Revenue			
United States	\$ 2,358	\$ —	\$ 2,358
North America (excluding United States)	54	—	54
France	—	650	650
United Kingdom	—	539	539
Europe (excluding France and United Kingdom)	—	433	433
Total	<u>\$ 2,412</u>	<u>\$ 1,622</u>	<u>\$ 4,034</u>

4. Restructuring Charges

We engage in restructuring actions as part of our ongoing efforts to best use our resources and infrastructure. These actions primarily relate to business optimization initiatives and generally include severance and facility-related costs, including impairment of lease assets, as well as contract termination costs, and are intended to improve our efficiency and profitability.

Our restructuring-related activity was as follows:

(In millions)	Reserve Balance as of December 31, 2025	Six Months Ended June 30, 2026		Reserve Balance as of June 30, 2026
		Charges Incurred	Payments	
Severance				
North American LTL	\$ 1	\$ —	\$ (1)	\$ —
European Transportation	3	21	(15)	9
Corporate	7	3	(8)	2
Total	\$ 11	\$ 24	\$ (23)	\$ 11

In addition to the severance charges noted in the table above, we recorded restructuring-related charges in our European Transportation segment, North American LTL segment and Corporate of \$6 million, \$1 million and \$1 million, respectively, during the first six months of 2026, which are primarily facility-related costs.

We expect that the majority of the cash outlays related to the severance charges incurred in the first six months of 2026 will be completed within 12 months.

5. Derivative Instruments

In the normal course of business, we are exposed to risks arising from business operations and economic factors, including fluctuations in interest rates and foreign currencies. We use derivative instruments to manage the volatility related to these exposures. The objective of these derivative instruments is to reduce fluctuations in our earnings and cash flows associated with changes in foreign currency exchange rates and interest rates. These financial instruments are not used for trading or other speculative purposes. Historically, we have not incurred, and do not expect to incur in the future, any losses as a result of counterparty default.

The fair value of our derivative instruments and the related notional amounts were as follows:

(In millions)	June 30, 2026				
	Notional Amount	Derivative Assets		Derivative Liabilities	
		Balance Sheet Caption	Fair Value	Balance Sheet Caption	Fair Value
Derivatives designated as hedges					
Cross-currency swap agreements	\$ 249	Other current assets	\$ —	Other current liabilities	\$ (26)
Cross-currency swap agreements	404	Other long-term assets	—	Other long-term liabilities	(31)
Interest rate swaps	550	Other current assets	—	Other current liabilities	—
Total			\$ —		\$ (57)

(In millions)	December 31, 2025				
	Notional Amount	Derivative Assets		Derivative Liabilities	
		Balance Sheet Caption	Fair Value	Balance Sheet Caption	Fair Value
Derivatives designated as hedges					
Cross-currency swap agreements	\$ 284	Other current assets	\$ —	Other current liabilities	\$ (32)
Cross-currency swap agreements	369	Other long-term assets	—	Other long-term liabilities	(44)
Interest rate swaps	550	Other current assets	—	Other current liabilities	(2)
Total			\$ —		\$ (78)

The derivatives are classified as Level 2 within the fair value hierarchy. The derivatives are valued using inputs other than quoted prices, such as foreign exchange rates and yield curves.

The effect of derivative and nonderivative instruments designated as hedges on our Condensed Consolidated Statements of Income was as follows:

	Amount of Gain (Loss) Recognized in Other Comprehensive Income (Loss) on Derivatives		Amount of Gain Recognized in Income on Derivative (Amount Excluded from Effectiveness Testing)	
	Three Months Ended June 30,			
(In millions)	2026	2025	2026	2025
Derivatives designated as cash flow hedges				
Interest rate swaps	\$ 1	\$ —	\$ —	\$ —
Derivatives designated as net investment hedges				
Cross-currency swap agreements	5	(59)	2	3
Total	\$ 5	\$ (59)	\$ 2	\$ 3

	Amount of Gain (Loss) Recognized in Other Comprehensive Income (Loss) on Derivatives		Amount of Gain Recognized in Income on Derivative (Amount Excluded from Effectiveness Testing)	
	Six Months Ended June 30,			
(In millions)	2026	2025	2026	2025
Derivatives designated as cash flow hedges				
Interest rate swaps	\$ 2	\$ (1)	\$ —	\$ —
Derivatives designated as net investment hedges				
Cross-currency swap agreements	17	(84)	5	5
Total	\$ 19	\$ (85)	\$ 5	\$ 5

Cross-Currency Swap Agreements

We enter into cross-currency swap agreements to manage the foreign currency exchange risk related to our international operations by effectively converting our fixed-rate USD-denominated debt, including the associated interest payments, to fixed-rate, euro (“EUR”)-denominated debt. The risk management objective of these transactions is to manage foreign currency risk relating to net investments in subsidiaries denominated in foreign currencies and reduce the variability in the functional currency equivalent cash flows of this debt.

During the term of the swap contracts, we receive interest on a quarterly basis from the counterparties based on USD fixed interest rates, and we pay interest, also on a quarterly basis, to the counterparties based on EUR fixed interest rates. At maturity, we will repay the original principal amount in EUR and receive the principal amount in USD. These agreements expire at various dates through 2028.

We designated these cross-currency swaps as qualifying hedging instruments and account for them as net investment hedges. We apply the simplified method of assessing the effectiveness of our net investment hedging relationships. Under this method, for each reporting period, the change in the fair value of the cross-currency swaps is initially recognized in Accumulated other comprehensive income (loss) ("AOCI"). The change in the fair value due to foreign exchange remains in AOCI and the initial component excluded from effectiveness testing will initially remain in AOCI and then will be reclassified from AOCI to Interest expense each period in a systematic manner. Cash flows related to the periodic exchange of interest payments for these net investment hedges are included in Cash flows from operating activities on our Condensed Consolidated Statements of Cash Flows.

In March 2026, we paid approximately \$3 million related to cross-currency swaps that were partially settled during the period. The fair value adjustments related to these swaps remain in AOCI and partially offset foreign currency translation adjustment losses on our net investments in foreign subsidiaries. The payments were included in Cash flows from investing activities on our Condensed Consolidated Statements of Cash Flows.

Interest Rate Hedging

We execute short-term interest rate swaps to mitigate variability in forecasted interest payments on our term loan facilities. The interest rate swaps convert floating-rate interest payments into fixed rate interest payments. We designated the interest rate swaps as qualifying hedging instruments and account for these derivatives as cash flow hedges. Our outstanding interest rate swaps mature in the fourth quarter of 2026.

We record gains and losses resulting from fair value adjustments to the designated portion of interest rate swaps in AOCI and reclassify them to Interest expense on the dates that interest payments accrue. Cash flows related to the interest rate swaps are included in Cash flows from operating activities on our Condensed Consolidated Statements of Cash Flows.

6. Debt

(In millions)	June 30, 2026		December 31, 2025	
	Principal Balance	Carrying Value	Principal Balance	Carrying Value
Term loan A facility	\$ 500	\$ 499	\$ —	\$ —
Term loan B facility	385	383	985	978
6.25% senior secured notes due 2028	830	826	830	825
7.125% senior notes due 2031	450	446	450	446
7.125% senior notes due 2032	585	578	585	577
6.70% senior debentures due 2034	300	233	300	230
Finance leases and other debt	242	242	257	257
Total debt	3,292	3,206	3,407	3,313
Short-term borrowings and current maturities of long-term debt	159	159	60	60
Long-term debt	\$ 3,133	\$ 3,047	\$ 3,347	\$ 3,253

The fair value of our debt and classification in the fair value hierarchy was as follows:

(In millions)	Fair Value	Level 1	Level 2
June 30, 2026	\$ 3,345	\$ 2,217	\$ 1,128
December 31, 2025	3,499	2,254	1,246

We valued Level 1 debt using quoted prices in active markets and Level 2 debt using bid evaluation pricing models.

Revolving Credit Facility

In February 2025, we terminated our Second Amended and Restated Revolving Credit Agreement, as amended (the “ABL Facility”), and entered into a Revolving Credit Agreement (the “Revolving Credit Agreement”). The Revolving Credit Agreement provides for revolving credit commitments in an aggregate amount of \$600 million (the “Revolving Credit Facility”), of which \$200 million is available for issuances of letters of credit. The maturity date of the Revolving Credit Facility is April 30, 2030.

As of June 30, 2026, we have approximately \$600 million available to draw under our Revolving Credit Facility, after considering outstanding letters of credit of less than \$1 million.

As of June 30, 2026, we were in compliance with the Revolving Credit Facility’s financial covenants.

Letters of Credit Facility

As of June 30, 2026, we have \$131 million in aggregate face amount of letters of credit outstanding under our \$200 million uncommitted secured evergreen letter of credit facility.

Term Loan A Facility

In May 2026, we entered into a Senior Secured Term Loan A Credit Agreement (the “Term Loan A Credit Agreement”). The agreement provides for a senior secured term loan A facility in an initial aggregate amount of \$500 million, maturing on May 29, 2029 (the “Term Loan A Facility”). Proceeds from the Term Loan A Facility were drawn in full on the closing date and, together with the proceeds from the 2026 Term Loan B Facility, defined below, were used to repay borrowings under the existing term loan B credit agreement.

The Term Loan A Facility bears interest at a rate per annum equal to, at the Company’s option, either alternate base rate (“ABR”) or Term Secured Overnight Financing Rate (“SOFR”) plus (i) in the case of ABR loans, 0.25% or, (ii) in the case of Term SOFR loans, 1.25%, which, on or after September 30, 2026, shall be reduced by 0.125% upon achievement of a leverage ratio defined in the Term Loan A Credit Agreement. In the third year of the facility, the Term Loan A Facility is subject to amortization of principal, payable in quarterly installments, equal to 5% of the original principal amount per annum, which may be reduced by prepayments.

Subject to customary exceptions, the Term Loan A Facility includes customary prepayment requirements, representations and warranties, events of default, reporting and other affirmative and negative covenants, including limitations on indebtedness, liens, investments, dividends, repayments of junior financings and asset sales, and is secured by a lien on substantially all of our assets and the assets of our guarantors. Certain covenants under the Term Loan A Credit Agreement will terminate or be amended, and all guarantees and liens securing the facility will be released, upon the Company’s achievement of investment grade ratings from at least two rating agencies.

As of June 30, 2026, we were in compliance with the Term Loan A Facility’s financial covenants. The interest rate on our Term Loan A Facility was approximately 4.87% as of June 30, 2026.

Term Loan B Facility

In May 2026, we amended our Senior Secured Term Loan Credit Agreement (“Amended Term Loan B Credit Agreement”). Pursuant to the amendment, the lenders provided the Company a new tranche of Term B-4 loans in an initial aggregate principal amount of \$385 million, maturing on February 1, 2031 (the “2026 Term Loan B Facility”). The proceeds from the 2026 Term Loan B Facility, together with the proceeds from the Term Loan A Facility, were used to repay \$885 million of outstanding principal, representing all outstanding indebtedness under our existing term loan B credit agreement. During the first half of 2026, prior to the refinancing, we used cash on hand to repay \$100 million of outstanding principal under the existing term loan B credit agreement. We recorded a debt extinguishment loss of \$5 million during the six months ended June 30, 2026, primarily related to the refinancing, and a debt extinguishment loss of \$5 million during the six months ended June 30, 2025 related to the refinancing of our term loans in February 2025.

The 2026 Term Loan B Facility bears interest at a rate per annum equal to, at the Company's option, either ABR or Term SOFR plus (i) in the case of ABR loans, 0.50% or, (ii) in the case of Term SOFR loans, 1.50%, which, after November 29, 2026, shall be reduced by 0.125% upon achievement of a leverage ratio defined in the Amended Term Loan B Credit Agreement.

The 2026 Term Loan B Facility includes customary prepayment requirements, representations and warranties, events of default, reporting and other affirmative and negative covenants, including limitations on indebtedness, liens, investments, dividends, repayments of junior financings and asset sales, subject to customary exceptions.

In July 2026, we used cash on hand to repay \$100 million of outstanding principal under the 2026 Term Loan B Facility, which was classified within Short-term borrowings and current maturities of long-term debt as of June 30, 2026. The debt extinguishment loss recorded in connection with the repayment was not material. Including the July repayment, we used cash on hand to repay \$200 million of outstanding principal under our term loans on a cumulative basis year to date.

The interest rate on our 2026 Term Loan B Facility was approximately 5.12% as of June 30, 2026.

7. Stockholders' Equity

Share Repurchases

In March 2025, our Board of Directors authorized repurchases of up to \$750 million of our common stock. The repurchase authorization permits us to purchase shares in both the open market and in private transactions, with the timing and number of shares dependent on a variety of factors, including price, general business and market conditions, alternative investment opportunities and funding considerations. We retire common shares that we repurchase upon settlement. The share repurchase program has no expiration date and may be utilized over time, with no obligation to repurchase any specific number of shares. We may suspend or discontinue this program at any time. This plan replaced our previous share repurchase plan, authorized in February 2019.

In the second quarter of 2026, we repurchased 341 thousand shares of common stock with an aggregate value of \$70 million at an average price of \$205.22 per share. In the first six months of 2026, we repurchased 497 thousand shares of common stock with an aggregate value of \$100 million at an average price of \$201.13 per share. The share repurchases were funded by cash on hand. In the second quarter and first six months of 2025, we repurchased 83 thousand shares of common stock with an aggregate value of \$10 million at an average price of \$120.41 per share. As of June 30, 2026, our remaining share repurchase authorization was \$525 million, reflecting \$225 million of cumulative repurchases to date under the program.

8. Earnings per Share

The computations of basic and diluted earnings per share were as follows:

(In millions, except per share data)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Net income	\$ 162	\$ 106	\$ 263	\$ 175
Basic weighted-average common shares	117	118	117	118
Dilutive effect of stock-based awards	1	2	1	2
Diluted weighted-average common shares	118	119	119	119
Basic earnings per share	\$ 1.38	\$ 0.90	\$ 2.24	\$ 1.49
Diluted earnings per share	\$ 1.36	\$ 0.89	\$ 2.22	\$ 1.47

9. Commitments and Contingencies

We are involved, and expect to continue to be involved, in numerous proceedings arising out of the conduct of our business. These proceedings may include claims for property damage or personal injury incurred in connection with the transportation of freight, cargo damage or loss, environmental liability, commercial disputes, insurance coverage disputes and employment-related claims, including claims involving asserted breaches of employee restrictive covenants.

We establish accruals for specific legal proceedings when it is considered probable that a loss has been incurred and the amount of the loss can be reasonably estimated. We review and adjust, as appropriate, accruals for loss contingencies at least quarterly and as additional information becomes available. If a loss is not both probable and reasonably estimable, or if an exposure to loss exists in excess of the amount accrued, we assess whether there is at least a reasonable possibility that a loss, or additional loss, may have been incurred. If there is a reasonable possibility that a loss, or additional loss, may have been incurred, we disclose the estimate of the possible loss or range of loss if it is material and an estimate can be made, or disclose that such an estimate cannot be made. The determination as to whether a loss can be considered reasonably possible or probable is based on our assessment, together with legal counsel, regarding the ultimate outcome of the matter.

We believe that we have adequately accrued for the potential impact of loss contingencies that are probable and reasonably estimable. We do not believe that the ultimate resolution of any matters to which we are presently a party will have a material adverse effect on our results of operations, financial condition or cash flows. However, the results of these matters cannot be predicted with certainty, and an unfavorable resolution of one or more of these matters could have a material adverse effect on our financial condition, results of operations or cash flows. Legal costs incurred related to these matters are expensed as incurred.

We carry liability and excess umbrella insurance policies that we deem sufficient to cover potential legal claims arising in the normal course of conducting our operations as a transportation company. In the event we are required to satisfy a legal claim outside the scope of the coverage provided by insurance, our financial condition, results of operations or cash flows could be negatively impacted.

Insurance Contribution Litigation

We have been engaged in litigation in a case captioned Allianz Global Risks US Ins. Co. v. ACE Property & Casualty Ins. Co., et al., Multnomah County Circuit Court (Case No. 1204-04552) since we acquired Con-way in 2015. In April 2012, prior to the acquisition, Allianz Global Risks US Ins. Co. (“Allianz”) filed suit against eighteen insurance companies seeking contribution on environmental and product liability claims that Allianz agreed to defend and indemnify on behalf of its insured, Daimler Trucks North America (“DTNA”). These claims involved truck and part manufacturing plants of Freightliner, a former subsidiary of Con-way, which Con-way sold to DTNA in 1981. The defendants had insured Freightliner’s assets and Con-way and Freightliner had self-insured under fronting agreements with three of the defendant insurers, ACE, Westport, and General. Under those agreements, Con-way agreed to indemnify the fronting carriers for damages assessed under the fronting policies. Con-way’s captive insurer, Centron, was also a named defendant. In connection with the acquisition of Con-way, we became responsible for any potential liability of Con-way related to this matter.

After a seven-week jury trial in 2014, the jury found that Con-way and the fronting insurers never intended that the fronting insurers defend or indemnify any claims against Freightliner. In June 2015, Allianz appealed to the Oregon Court of Appeals. In May 2019, the Oregon Court of Appeals upheld the jury verdict. In September 2019, Allianz appealed to the Oregon Supreme Court. In March 2021, the Oregon Supreme Court reversed the jury verdict, holding that it was an error to allow the jury to decide how the parties intended the fronting policies to operate, and also holding that the trial court improperly instructed the jury concerning application of certain policy pollution exclusions. In July 2021, the matter was remanded to the trial court for further proceedings consistent with the Oregon Supreme Court's decision. In June 2023, the trial court decided the parties' cross-motions for summary judgment and determined that the fronting policies do provide coverage for the environmental and product liability claims. The pollution exclusion and allocation issues remained open. The trial on the pollution exclusion issue took place in October 2024, where the jury issued a favorable verdict, finding that the pollution exclusion applied to the General policy over several years for which Allianz seeks contribution. The trial addressing legal and factual issues relating to the allocation of defense and indemnity costs among the applicable insurance policies took place during the first half of 2025 and final hearings on allocation and potential application of prejudgment interest took place in October 2025 and early February 2026, respectively. A hearing on the final judgment occurred in May 2026, and the court entered its final judgment. In the third quarter of 2025, in anticipation of a final judgment, we revised our estimate for our share of the liability associated with this matter and recognized a charge of approximately \$35 million, which included an allocation of defense and indemnity costs already incurred by Allianz as well as an estimate of future allocated defense and indemnity costs. The final judgment entered was in alignment with the amount accrued and the expected allocation of defense and indemnity costs already incurred by Allianz. The final judgment is now subject to appeal by Allianz as well as multiple defendants, with Notice of Appeal submitted in June 2026. No appellate schedule, including briefing schedule, has yet been established, nor have the portions of the final judgment which are subject to the appeals been identified.

This matter is solely related to a legacy Con-way truck manufacturing business and is unrelated to our current Less-than-Truckload operations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**Cautionary Statement Regarding Forward-Looking Statements**

This Quarterly Report on Form 10-Q and other written reports and oral statements we make from time to time contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements other than statements of historical fact are, or may be deemed to be, forward-looking statements. In some cases, forward-looking statements can be identified by the use of forward-looking terms such as "anticipate," "estimate," "believe," "continue," "could," "intend," "may," "plan," "potential," "predict," "should," "will," "expect," "objective," "projection," "forecast," "goal," "guidance," "outlook," "effort," "target," "trajectory" or the negative of these terms or other comparable terms. However, the absence of these words does not mean that the statements are not forward-looking. These forward-looking statements are based on certain assumptions and analyses made by the Company in light of its experience and its perception of historical trends, current conditions and expected future developments, as well as other factors it believes are appropriate in the circumstances. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions that may cause actual future results, levels of activity, performance or achievements to be materially different from our expected future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. Factors that might cause or contribute to a material difference include those discussed below and the risks discussed in the Company's other filings with the Securities and Exchange Commission (the "SEC"). All forward-looking statements set forth in this Quarterly Report on Form 10-Q are qualified by these cautionary statements, and there can be no assurance that the actual results or developments anticipated by the Company will be realized or, even if substantially realized, that they will have the expected consequence to or effects on the Company or its business or operations. The following discussion should be read in conjunction with the Company's unaudited Condensed Consolidated Financial Statements and related notes thereto included elsewhere in this Quarterly Report on Form 10-Q, and with the audited consolidated financial statements and related notes thereto included in the Annual Report on Form 10-K for the year ended December 31, 2025 (the "2025 Form 10-K"). Forward-looking statements set forth in this Quarterly Report on Form 10-Q speak only as of the date hereof, and we do not undertake any obligation to update forward-looking statements to reflect subsequent events or circumstances, changes in expectations or the occurrence of unanticipated events, except to the extent required by law.

Executive Summary

XPO, Inc., together with its subsidiaries ("XPO," "we" or the "Company"), is a leading provider of freight transportation services, with company-specific avenues for value creation. We use our proprietary technology to move goods efficiently through our customers' supply chains in North America and Europe. As of June 30, 2026, we had approximately 38,000 employees serving approximately 55,000 customers through 586 owned and leased locations in 17 countries.

Our company has two reportable segments: North American Less-Than-Truckload ("LTL"), the largest component of our business, and European Transportation. Our North American LTL segment includes the results of our trailer manufacturing operation.

Within the tables presented, certain amounts may not add due to the use of rounded numbers. Unless otherwise indicated, percentages presented are calculated from the underlying numbers in millions.

North American LTL Segment

LTL in North America is a bedrock industry providing a critical service to the economy, with secular growth drivers, a favorable pricing environment and an established competitive landscape. XPO operates one of the largest LTL networks in North America, with approximately 9% share of the U.S. market, estimated to be \$52 billion in 2025.

Our network serves approximately 38,000 shippers with critical geographic density and day-definite domestic services to approximately 99% of U.S. ZIP codes, as well as cross-border services to Mexico, Canada and the Caribbean. We operate the business to high service standards for on-time delivery and damage-free transport, while balancing our network to leverage our fixed costs. In 2025, we developed new linehaul models that use artificial intelligence (AI) to improve the efficiency of our freight flows, piloted routing innovations for pickup-and-delivery operations and continued to improve productivity with real-time labor analytics at the service center level. Our proprietary developments in intelligent automation and AI-enabled decision-making are directly enhancing profitability.

Our LTL business historically has generated a high return on invested capital and robust free cash flow, funding our ongoing investments in people, capacity and technology. For example, since implementing our growth plan in the fourth quarter of 2021, we have added more than 2,000 net new doors to our network, expanding our presence in high-growth markets while improving our operating ratio.

We have created a strategic growth opportunity by building more than 30% excess door capacity into our network. Additionally, we invest in advancing a host of XPO-specific initiatives that are largely independent of the macroeconomic environment. Our trailer manufacturing facility and commercial truck driver schools are self-reliant competitive advantages for our company, particularly when industry conditions make it difficult to source equipment or drivers.

This positions us to capture profitable market share gains and drive higher incremental margins as market conditions improve. LTL industry capacity is currently constrained below pre-pandemic levels in North America, and we believe that our combination of capacity and technology puts us in a unique position to respond quickly to rebounds in demand as the freight recession eases.

We expect our proprietary, AI-driven capabilities to become increasingly essential to how we operate, compete and create value in all these areas. For more information, see “Technology” below.

European Transportation Segment

XPO has a unique pan-European transportation platform with leading positions in key geographies and deep expertise in consumer, trade and industrial markets. We are the #1 full truckload broker and the #1 pallet network (LTL) provider in France; the #1 full truckload broker and the #1 LTL provider in Iberia (Spain and Portugal); and, in the U.K., we are a market leader in warehousing, a top-tier dedicated truckload provider and have the largest single-owner LTL network. Our extensive customer base includes many sector leaders that have long-tenured relationships with us.

Our full range of freight services in Europe encompasses dedicated truckload, LTL, full truckload brokerage, warehousing, managed transportation, last mile delivery, freight forwarding and, increasingly, multimodal solutions designed for specific customer needs. We use our proprietary technology to manage these services efficiently within our digital ecosystem in Europe.

The previously announced authorization by our Board of Directors to divest the European business remains in effect. There can be no assurance that the divestiture will occur, or of the terms or timing of a transaction.

Technology

One of the ways in which we deliver superior service to our customers is by empowering our employees with technology. Our industry is evolving, and customers want to de-risk their supply chains by forming relationships with reliable service providers that have invested in innovation.

We have built a highly scalable ecosystem on the cloud that deploys our software consistently across our operating footprint. In our North American LTL business, the caliber of our technology is mission-critical to our success; it optimizes pricing, linehaul, pickup-and-delivery and dock operations — the main components of the service we provide. We have been investing in proprietary AI technology and are implementing these initiatives across a number of high-impact applications where intelligent automation and better decision making are directly enhancing profitability. We see AI playing a major role in how we operate, price our services, compete, and create value over the long term.

An LTL network of our scale has hundreds of thousands of activities underway at any given time, all managed on our technology. For the trailing 12 months ended June 30, 2026, we moved approximately 16 billion pounds of freight 784 million miles, including moving linehaul freight an average of 2.5 million miles a day.

With intelligent route-building, we can reduce empty miles in our linehaul network and improve load factor. Our proprietary optimization models analyze massive amounts of data including volume, capacity, and dimensions and generate instructions to maximize trailer utilization, reduce cost, and enhance service. We use our real-time visualization tools to drive efficiencies with pickups and deliveries and a robust pricing platform for contractual account management.

Consolidated Summary Financial Table

(Dollars in millions)	Three Months Ended June 30,		Percent of Revenue		Change	Six Months Ended June 30,		Percent of Revenue		Change
	2026	2025	2026	2025	2026 vs. 2025	2026	2025	2026	2025	2026 vs. 2025

NM - Not meaningful.

Three and Six Months Ended June 30, 2026 Compared with Three and Six Months Ended June 30, 2025

Our consolidated revenue for the second quarter of 2026 increased 13.2% to \$2.4 billion, compared with the same quarter in 2025. Our consolidated revenue for the first six months of 2026 increased 10.3% to \$4.5 billion, compared with the same period in 2025. Foreign currency movement increased revenue by approximately 1.0 percentage point in the second quarter of 2026 and by approximately 2.6 percentage points in the first six months of 2026. The increase in revenue during the second quarter of 2026 and the first six months of 2026 compared to the same periods in 2025, after taking into effect the impact of foreign currency movements, primarily reflects higher revenue in both our North American LTL and European Transportation segments, further explained below, and includes the impact of higher revenue from fuel surcharges.

Salaries, wages and employee benefits includes compensation-related costs for our employees, including salaries, wages, incentive compensation, healthcare-related costs and payroll taxes, and covers drivers and dockworkers, operations and facility workers and employees in support roles and other positions. Salaries, wages and employee benefits for the second quarter of 2026 was \$929 million, or 39.4% of revenue, compared with \$871 million, or 41.9% of revenue, for the same quarter in 2025. Salaries, wages and employee benefits for the first six months of 2026 was \$1.8 billion, or 40.6% of revenue, compared with \$1.7 billion, or 42.2% of revenue, for the same period in 2025. The year-over-year increase in both periods primarily reflects wage inflation, higher volumes and higher incentive compensation, partially offset by productivity improvements enabled by our AI-driven optimization tools. As a percentage of revenue, the year-over-year decrease reflects leveraging compensation costs across a larger revenue base.

Purchased transportation includes costs of procuring third-party freight transportation. Purchased transportation for the second quarter of 2026 was \$464 million, or 19.7% of revenue, compared with \$426 million, or 20.5% of revenue, for the same quarter in 2025. Purchased transportation for the first six months of 2026 was \$887 million, or 19.9% of revenue, compared with \$826 million, or 20.5% of revenue, for the same period in 2025. The year-over-year increase in both periods primarily reflects higher prices for purchased transportation, driven in part by higher fuel prices, partially offset by the insourcing of a greater proportion of linehaul from third-party transportation providers in our North American LTL segment. As a percentage of revenue, the year-over-year decrease reflects proportionally higher revenue growth.

Fuel, operating expenses and supplies includes the cost of fuel purchased for use in our vehicles as well as related taxes, maintenance and lease costs for our equipment, including tractors and trailers, costs related to operating our owned and leased facilities, bad debt expense, third-party professional fees, information technology expenses and supplies expense. Fuel, operating expenses and supplies for the second quarter of 2026 was \$476 million, or 20.2% of revenue, compared with \$384 million, or 18.5% of revenue, for the same quarter in 2025. Fuel, operating expenses and supplies for the first six months of 2026 was \$899 million, or 20.2% of revenue, compared with \$777 million, or 19.3% of revenue, for the same period in 2025. As a percentage of revenue, the year-over-year increase in both periods primarily reflects higher fuel costs.

Operating taxes and licenses includes tax expenses related to our vehicles and our owned and leased facilities as well as license expenses to operate our vehicles. Operating taxes and licenses for the second quarter of 2026 was \$22 million, compared with \$21 million for the same period in 2025. Operating taxes and licenses for the first six months of 2026 was \$43 million, compared with \$40 million for the same period in 2025.

Insurance and claims includes costs related to vehicular and cargo claims for both purchased insurance and self-insurance programs. Insurance and claims for the second quarter of 2026 was \$40 million, compared with \$40 million for the same quarter in 2025. Insurance and claims for the first six months of 2026 was \$75 million, compared with \$75 million for the same period in 2025.

Gains on sales of property and equipment for the second quarter of 2026 was \$7 million, compared with \$1 million for the same quarter in 2025. Gains on sales of property and equipment for the first six months of 2026 was \$8 million, compared with \$3 million for the same period in 2025. The year-over-year increase was due to the timing of gains on real estate transactions in our North American LTL segment.

Depreciation and amortization expense for the second quarter of 2026 was \$134 million, compared with \$131 million for the same quarter in 2025. Depreciation and amortization expense for the first six months of 2026 was \$265 million, compared with \$254 million for the same period in 2025. The year-over-year increase primarily reflects the impact of capital investments in property, tractors and trailers in our North American LTL segment.

Legal matters for the second quarter of 2025 and the first six months of 2025 was a gain of \$2 million and \$13 million, respectively, which reflects the settlement of claims against certain truck manufacturers related to purchases by our European Transportation segment covering periods prior to our acquisition of Norbert Dentressangle SA in 2015. There was no comparable gain or loss in the first six months of 2026.

Transaction and integration costs for the second quarter of 2026 were \$2 million, compared with \$3 million for the same quarter in 2025. Transaction and integration costs for the first six months of 2026 were \$4 million, compared with \$6 million for the same period in 2025.

Restructuring costs for the second quarter of 2026 were \$22 million, compared with \$8 million for the same quarter in 2025. Restructuring costs for the first six months of 2026 were \$31 million, compared with \$20 million for the same period in 2025. Restructuring costs in both periods primarily related to restructuring actions in our European Transportation segment. We engage in restructuring actions as part of our ongoing efforts to best use our resources and infrastructure. For more information, see Note 4—Restructuring Charges to our Condensed Consolidated Financial Statements.

Other income for the second quarter of 2026 was \$4 million, compared with \$2 million for the same quarter in 2025. Other income for the first six months of 2026 was \$7 million, compared with \$3 million for the same period in 2025. The year-over-year increase in both periods primarily reflects an increase in net periodic pension income.

Debt extinguishment loss for the second quarter of 2026 was \$5 million, compared with \$0 million for the same period in 2025. Debt extinguishment loss for the first six months of 2026 was \$5 million, compared with \$5 million for the same period in 2025. Debt extinguishment loss in both years primarily related to refinancings of our term loan facility.

Interest expense decreased to \$51 million for the second quarter of 2026, compared with \$56 million for the same quarter in 2025. Interest expense decreased to \$104 million for the first six months of 2026, compared with \$112 million for the same period in 2025. The year-over-year decrease is primarily due to the repayment of debt as well as lower interest rates on our variable rate debt.

Our effective income tax rates were 25.8% and 25.9% for the second quarters of 2026 and 2025, respectively, and 23.1% and 25.3% for the first six months of 2026 and 2025, respectively. The effective income tax rates for the second quarter and six-month periods of 2026 and 2025 were based on forecasted full-year effective income tax rates, adjusted for discrete items that occurred within the periods presented.

The effective tax rate for the second quarter of 2026 was consistent with the second quarter of 2025, remaining essentially flat year over year. The primary items impacting the effective tax rate for the second quarter of 2026 were losses for which no tax benefit can be recognized and forecasted non-deductible executive compensation.

The decrease in our effective income tax rate for the first six months of 2026 compared to the same period in 2025 was primarily driven by an increase in a discrete tax benefit from stock-based compensation and a change in estimate related to the discrete benefit associated with a legal entity reorganization in our European Transportation business that occurred in 2024, partially offset by losses for which no tax benefit can be recognized. The primary items impacting the effective tax rate for the first six months of 2026 were losses for which no tax benefit can be recognized and forecasted non-deductible executive compensation partially offset by a discrete tax benefit from stock-based compensation.

The remaining cash refund we expect to receive in connection with the legal entity reorganization in our European Transportation business is \$6 million. This amount is expected to be received in 2026 or 2027.

Segment Financial Results

Our chief operating decision maker (“CODM”) regularly reviews financial information at the operating segment level to allocate resources to the segments and to assess their performance. For our North American LTL and European Transportation segments, our CODM evaluates segment profit (loss) based on adjusted earnings before interest, taxes, depreciation and amortization (“adjusted EBITDA”), which we define as income before debt extinguishment loss, interest expense, income tax provision, depreciation and amortization expense, legal matters, transaction and integration costs, restructuring costs and other adjustments. Segment adjusted EBITDA includes an allocation of corporate costs. See Note 2—Segment Reporting to our Condensed Consolidated Financial Statements for further information and a reconciliation of adjusted EBITDA to consolidated net income.

North American Less-Than-Truckload Segment

(Dollars in millions)	Three Months Ended June 30,		Percent of Revenue		Change	Six Months Ended June 30,		Percent of Revenue		Change
	2026	2025	2026	2025	2026 vs. 2025	2026	2025	2026	2025	2026 vs. 2025
Revenue	\$ 1,428	\$ 1,240	100.0 %	100.0 %	15.2 %	\$ 2,657	\$ 2,412	100.0 %	100.0 %	10.2 %
Adjusted EBITDA ⁽¹⁾	390	300	27.3 %	24.2 %	30.0 %	680	550	25.6 %	22.8 %	23.6 %
Depreciation and amortization	100	96	7.0 %	7.7 %	4.2 %	197	185	7.4 %	7.7 %	6.5 %

(1) Percent of Revenue is calculated using the underlying unrounded amounts.

Revenue in our North American LTL segment increased 15.2% to \$1.4 billion for the second quarter of 2026, compared with \$1.2 billion for the same quarter in 2025. Revenue in our North American LTL segment increased 10.2% to \$2.7 billion for the first six months of 2026, compared with \$2.4 billion for the same period in 2025. Revenue included fuel surcharge revenue of \$314 million and \$183 million, respectively, for the second quarters of 2026 and 2025, and \$515 million and \$361 million, respectively, for the first six months of 2026 and 2025. The increase in fuel surcharge revenue was primarily driven by higher diesel prices.

We evaluate the revenue performance of our LTL business using several commonly used metrics, including tonnage (weight per day in pounds) and yield, which is a commonly used measure of LTL pricing trends. We measure yield using gross revenue per hundredweight, excluding fuel surcharges. Impacts on yield can include weight per shipment and length of haul, among other factors, while impacts on tonnage can include shipments per day and weight per shipment. The following table summarizes our key revenue metrics:

	Three Months Ended June 30,			Six Months Ended June 30,		
	2026	2025	Change %	2026	2025	Change %
Pounds per day (thousands)	68,463	67,813	1.0 %	66,998	66,625	0.6 %
Shipments per day	52,229	50,782	2.8 %	51,041	49,596	2.9 %
Average weight per shipment (in pounds)	1,311	1,335	(1.8)%	1,313	1,343	(2.3)%
Gross revenue per hundredweight, excluding fuel surcharges	\$ 26.09	\$ 24.99	4.4 %	\$ 25.91	\$ 24.86	4.2 %

Percentages presented are calculated using the underlying unrounded amounts.

The year-over-year increase in revenue, excluding fuel surcharge revenue, for both the second quarter and first six months of 2026 reflects higher yield, primarily related to our improvements in service quality and the benefit of numerous pricing initiatives, and higher tonnage. The increase in tonnage for both the second quarter and first six months of 2026 reflects higher shipments per day partially offset by lower average weight per shipment.

Adjusted EBITDA was \$390 million for the second quarter of 2026, compared with \$300 million for the same quarter in 2025. Adjusted EBITDA was \$680 million for the first six months of 2026, compared with \$550 million for the same period in 2025. The increase in adjusted EBITDA reflects higher yield, shipments per day and fuel surcharge revenue, as well as productivity improvements, partially offset by lower average weight per shipment, higher fuel costs and wage inflation.

Depreciation and amortization expense increased to \$100 million in the second quarter of 2026 compared with \$96 million for the same quarter in 2025. Depreciation and amortization expense increased to \$197 million in the first six months of 2026 compared with \$185 million for the same period in 2025. The year-over-year increase was primarily due to the impact of capital investments in property, tractors and trailers.

European Transportation Segment

(Dollars in millions)	Three Months Ended June 30,		Percent of Revenue		Change	Six Months Ended June 30,		Percent of Revenue		Change
	2026	2025	2026	2025	2026 vs. 2025	2026	2025	2026	2025	2026 vs. 2025
Revenue	\$ 927	\$ 841	100.0 %	100.0 %	10.2 %	\$ 1,794	\$ 1,622	100.0 %	100.0 %	10.6 %
Adjusted EBITDA ⁽¹⁾	48	44	5.2 %	5.2 %	9.1 %	81	76	4.5 %	4.7 %	6.6 %
Depreciation and amortization	33	34	3.6 %	4.0 %	(2.9)%	66	67	3.7 %	4.1 %	(1.5)%

(1) Percent of Revenue is calculated using the underlying unrounded amounts.

Revenue in our European Transportation segment increased 10.2% to \$927 million for the second quarter of 2026, compared with \$841 million for the same quarter in 2025. Revenue increased 10.6% to \$1.8 billion for the first six months of 2026, compared with \$1.6 billion for the same period in 2025. Foreign currency movement increased revenue by approximately 2.4 percentage points in the second quarter of 2026 and by approximately 6.4 percentage points in the first six months of 2026. The increase in revenue reflects improved pricing, the impact of foreign currency movements and higher fuel revenue.

Adjusted EBITDA was \$48 million for the second quarter of 2026, compared with \$44 million for the same quarter in 2025. Adjusted EBITDA was \$81 million for the first six months of 2026, compared with \$76 million for the same period in 2025. The increase in adjusted EBITDA in both the second quarter and the first six months of 2026 primarily reflects higher revenue, partially offset by higher fuel costs, operating lease and facility costs, purchased transportation and salaries, wages and employee benefits.

Depreciation and amortization expense decreased to \$33 million in the second quarter of 2026, compared with \$34 million for the same quarter in 2025. Depreciation and amortization expense decreased to \$66 million in the first six months of 2026, compared with \$67 million for the same period in 2025.

Liquidity and Capital Resources

Our cash and cash equivalents balance was \$298 million as of June 30, 2026, compared to \$310 million as of December 31, 2025. Our principal existing sources of cash are: (i) cash generated from operations; (ii) borrowings available under our Revolving Credit Facility (as defined below); and (iii) proceeds from the issuance of other debt. As of June 30, 2026, we have approximately \$600 million available to draw under our Revolving Credit Facility, after considering outstanding letters of credit of less than \$1 million. Additionally, we have a \$200 million uncommitted secured evergreen letter of credit facility, under which we had issued \$131 million in aggregate face amount of letters of credit as of June 30, 2026.

In February 2025, we terminated our Second Amended and Restated Revolving Credit Agreement, as amended, and entered into a Revolving Credit Agreement (the “Revolving Credit Agreement”). The Revolving Credit Agreement provides for revolving credit commitments in an aggregate amount of \$600 million (the “Revolving Credit Facility”). See Note 6—Debt to our Condensed Consolidated Financial Statements for further information.

As of June 30, 2026, total liquidity, comprised of cash and cash equivalents and availability under the Revolving Credit Facility, was approximately \$898 million. We continually evaluate our liquidity requirements in light of our operating needs, growth initiatives and capital resources. We believe that our existing liquidity and sources of capital are sufficient to support our operations over the next 12 months and for the foreseeable future thereafter.

Trade Receivables Securitization and Factoring Programs

In our European Transportation business, we sell certain of our trade accounts receivable under securitization and factoring programs. We use trade receivables securitization and factoring programs to help manage our cash flows and offset the impact of extended payment terms for some of our customers. For more information, see Note 1—Description of Business and Basis of Presentation to our Condensed Consolidated Financial Statements.

The maximum amount of net cash proceeds available at any one time under our securitization program, inclusive of any unsecured borrowings, is €200 million (approximately \$228 million as of June 30, 2026). As of June 30, 2026, the maximum amount available under the program was utilized. Under the securitization program, we service the receivables we sell on behalf of the purchasers. In January 2026, the program was amended to extend the maturity date through March 2029.

Term Loan A Facility

In May 2026, we entered into a Senior Secured Term Loan A Credit Agreement (the “Term Loan A Credit Agreement”). The agreement provides for a senior secured term loan A facility in an initial aggregate amount of \$500 million, maturing on May 29, 2029 (the “Term Loan A Facility”). Proceeds from the Term Loan A Facility were drawn in full on the closing date and, together with the proceeds from the 2026 Term Loan B Facility, defined below, were used to repay borrowings under the existing term loan B credit agreement.

The Term Loan A Facility bears interest at a rate per annum equal to, at the Company’s option, either alternate base rate (“ABR”) or Term Secured Overnight Financing Rate (“SOFR”) plus (i) in the case of ABR loans, 0.25% or, (ii) in the case of Term SOFR loans, 1.25%, which, on or after September 30, 2026, shall be reduced by 0.125% upon achievement of a leverage ratio defined in the Term Loan A Credit Agreement. In the third year of the facility, the Term Loan A Facility is subject to amortization of principal, payable in quarterly installments, equal to 5% of the original principal amount per annum, which may be reduced by prepayments.

Subject to customary exceptions, the Term Loan A Facility includes customary prepayment requirements, representations and warranties, events of default, reporting and other affirmative and negative covenants, including limitations on indebtedness, liens, investments, dividends, repayments of junior financings and asset sales, and is secured by a lien on substantially all of our assets and the assets of our guarantors. Certain covenants under the Term Loan A Credit Agreement will terminate or be amended, and all guarantees and liens securing the facility will be released, upon the Company’s achievement of investment grade ratings from at least two rating agencies.

As of June 30, 2026, we were in compliance with the Term Loan A Facility’s financial covenants. The interest rate on our Term Loan A Facility was approximately 4.87% as of June 30, 2026.

Term Loan B Facility

In May 2026, we amended our Senior Secured Term Loan Credit Agreement (“Amended Term Loan B Credit Agreement”). Pursuant to the amendment, the lenders provided the Company a new tranche of Term B-4 loans in an initial aggregate principal amount of \$385 million, maturing on February 1, 2031 (the “2026 Term Loan B Facility”). The proceeds from the 2026 Term Loan B Facility, together with the proceeds from the Term Loan A Facility, were used to repay \$885 million of outstanding principal, representing all outstanding indebtedness under our existing term loan B credit agreement. During the first half of 2026, prior to the refinancing, we used cash on hand to repay \$100 million of outstanding principal under the existing term loan B credit agreement. We recorded a debt extinguishment loss of \$5 million during the six months ended June 30, 2026, primarily related to the refinancing, and a debt extinguishment loss of \$5 million during the six months ended June 30, 2025 related to the refinancing of our term loans in February 2025.

The 2026 Term Loan B Facility bears interest at a rate per annum equal to, at the Company’s option, either ABR or Term SOFR plus (i) in the case of ABR loans, 0.50% or, (ii) in the case of Term SOFR loans, 1.50%, which, after November 29, 2026, shall be reduced by 0.125% upon achievement of a leverage ratio defined in the Amended Term Loan B Credit Agreement.

The 2026 Term Loan B Facility includes customary prepayment requirements, representations and warranties, events of default, reporting and other affirmative and negative covenants, including limitations on indebtedness, liens, investments, dividends, repayments of junior financings and asset sales, subject to customary exceptions.

In July 2026, we used cash on hand to repay \$100 million of outstanding principal under the 2026 Term Loan B Facility, which was classified within Short-term borrowings and current maturities of long-term debt as of June 30, 2026. The debt extinguishment loss recorded in connection with the repayment was not material. Including the July repayment, we used cash on hand to repay \$200 million of outstanding principal under our term loans on a cumulative basis year to date.

The interest rate on our 2026 Term Loan B Facility was approximately 5.12% as of June 30, 2026.

Share Repurchases

In March 2025, our Board of Directors authorized repurchases of up to \$750 million of our common stock. The repurchase authorization permits us to purchase shares in both the open market and in private transactions, with the timing and number of shares dependent on a variety of factors, including price, general business and market conditions, alternative investment opportunities and funding considerations. We retire common shares that we repurchase upon settlement. The share repurchase program has no expiration date and may be utilized over time, with no obligation to repurchase any specific number of shares. We may suspend or discontinue this program at any time. This plan replaced our previous share repurchase plan, authorized in February 2019.

In the second quarter of 2026, we repurchased 341 thousand shares of common stock with an aggregate value of \$70 million at an average price of \$205.22 per share. In the first six months of 2026, we repurchased 497 thousand shares of common stock with an aggregate value of \$100 million at an average price of \$201.13 per share. The share repurchases were funded by cash on hand. In the second quarter and first six months of 2025, we repurchased 83 thousand shares of common stock with an aggregate value of \$10 million at an average price of \$120.41 per share. As of June 30, 2026, our remaining share repurchase authorization was \$525 million, reflecting \$225 million of cumulative repurchases to date under the program.

Loan Covenants and Compliance

As of June 30, 2026, we were in compliance with the covenants and other provisions of our debt agreements. Any failure to comply with any material provision or covenant of these agreements could have a material adverse effect on our liquidity and operations.

Sources and Uses of Cash

(In millions)	Six Months Ended June 30,	
	2026	2025
Net cash provided by operating activities	\$ 491	\$ 389
Net cash used in investing activities	(208)	(382)
Net cash used in financing activities	(300)	(74)

During the six months ended June 30, 2026, we (i) generated cash from operating activities of \$491 million and (ii) received proceeds of \$885 million from the issuance of the Term Loan A Facility and the 2026 Term Loan B Facility. We used cash during the period primarily to: (i) repay \$985 million of outstanding principal under our existing term loan B credit agreement; (ii) purchase property and equipment of \$238 million; (iii) repurchase common stock of \$100 million; (iv) make net payments of \$88 million related to tax withholding obligations in connection with the vesting of stock compensation awards; and (v) repay \$39 million of finance leases and other debt.

During the six months ended June 30, 2025, we generated cash from operating activities of \$389 million. We used cash during this period primarily to: (i) purchase property and equipment of \$395 million; (ii) make net payments of \$48 million related to tax withholding obligations in connection with the vesting of stock compensation awards; and (iii) repay \$36 million of finance leases and other debt.

Cash flows from operating activities for the six months ended June 30, 2026 increased by \$102 million, compared with the same period in 2025. The increase primarily reflects higher net income of \$88 million in the first six months of 2026, compared with the same period in 2025.

Investing activities used \$208 million of cash in the six months ended June 30, 2026 and \$382 million of cash in the six months ended June 30, 2025. During the six months ended June 30, 2026, we used \$238 million to purchase property and equipment, as compared to a \$395 million usage of cash in the same period in 2025. The decrease is due to planned reductions in capital expenditures in 2026 compared to 2025.

Financing activities used \$300 million of cash in the six months ended June 30, 2026 and \$74 million of cash in the six months ended June 30, 2025. The primary uses of cash from financing activities during the first six months of 2026 were \$985 million to repay outstanding principal under our existing term loan B credit agreement, \$100 million to repurchase common stock, \$88 million to make net payments for tax withholdings on vested stock compensation awards, primarily during the first quarter of 2026, and \$39 million to repay finance leases and other debt. The primary uses of cash from financing activities during the first six months of 2025 were \$48 million to make net payments for tax withholdings on vested stock compensation awards, primarily during the first quarter of 2025, and \$36 million to repay finance leases and other debt. The primary source of cash from financing activities during the first six months of 2026 was \$885 million of proceeds from the issuance of the Term Loan A Facility and the 2026 Term Loan B Facility and \$26 million of proceeds from bank overdrafts, compared to \$22 million of proceeds from bank overdrafts in the same period of 2025.

Except as set forth above under Term Loan A Facility and Term Loan B Facility, there were no material changes to our December 31, 2025 contractual obligations during the six months ended June 30, 2026. We anticipate full year gross capital expenditures to be between \$500 million and \$600 million in 2026, funded by cash on hand, cash generated from operations and available liquidity.

New Accounting Standards

Information related to new accounting standards is included in Note 1—Description of Business and Basis of Presentation to our Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are exposed to market risk related to changes in interest rates, foreign currency exchange rates and commodity prices. There have been no material changes to our quantitative and qualitative disclosures about market risk during the six months ended June 30, 2026, as compared with the quantitative and qualitative disclosures about market risk described in our 2025 Form 10-K.

Item 4. Controls and Procedures.

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended, as of June 30, 2026. Based on that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of June 30, 2026, such that the information required to be included in our Securities and Exchange Commission (“SEC”) reports is: (i) recorded, processed, summarized and reported within the time periods specified in SEC rules and forms relating to the Company, including our consolidated subsidiaries; and (ii) accumulated and communicated to our management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have not been any changes in our internal control over financial reporting during the quarter ended June 30, 2026 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II—Other Information

Item 1. Legal Proceedings.

For information related to our legal proceedings, refer to “Legal Proceedings” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2025 and Note 9—Commitments and Contingencies of Item 1, “Financial Statements” of this Quarterly Report on Form 10-Q.

Item 1A. Risk Factors.

There are no material changes to the risk factors previously disclosed in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2025.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

There were no issuances of unregistered securities during the quarter ended June 30, 2026.

Issuer Purchases of Equity Securities

<i>(In millions, except share and per share data)</i>	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ⁽²⁾
April 1, 2026 - April 30, 2026	8,278	\$ 217.41	8,278	\$ 593
May 1, 2026 - May 31, 2026	332,797	204.92	332,797	525
June 1, 2026 - June 30, 2026	—	—	—	525
Total	<u>341,075</u>	<u>\$ 205.22</u>	<u>341,075</u>	<u>\$ 525</u>

(1) Based on trade date.

(2) On March 27, 2025, we announced that our Board of Directors authorized repurchases of up to \$750 million of our common stock. The program has no expiration date and may be utilized over time, with no obligation to repurchase any specific number of shares. We may suspend or discontinue the program at any time. For further details, refer to Note 7—Stockholders' Equity to our Condensed Consolidated Financial Statements.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

On June 15, 2026, each of Kyle Wismans, Chief Financial Officer, and David Bates, Chief Operating Officer, entered into a 10b5-1 trading plan. The trading plan for Mr. Wismans provides for the potential sale of up to 16,378 shares of Company common stock. The trading plan for Mr. Bates provides for the sale of up to 15,456 shares of Company common stock. Amounts may include shares to be earned as performance-based restricted stock unit awards and are presented at their target amounts. The actual number of shares earned, if any, will depend on the relative attainment of the performance metrics. Each of the trading plans will be in effect until the earlier of (i) August 31, 2027 and (ii) the date upon the completion or expiration of all transactions under the trading plan. Each of the trading plans were entered into during an open insider trading window and intended to satisfy the affirmative defense of Rule 10b5-1(c) under the Securities Exchange Act of 1934, as amended, and the Company's policies regarding transactions in Company securities.

Item 6. Exhibits.

Exhibit Number	Description
10.1	<u>Amendment No. 11 to Credit Agreement, dated as of May 29, 2026, by and among XPO, Inc., the subsidiaries signatory thereto, as guarantors, the lenders party thereto and Morgan Stanley Senior Funding, Inc., as administrative agent and collateral agent (incorporated herein by reference to Exhibit 10.1 to the registrant's Current Report on Form 8-K filed with the SEC on June 1, 2026).</u>
10.2	<u>Senior Secured Term Loan A Credit Agreement, dated as of May 29, 2026, by and among XPO, Inc., the subsidiaries signatory thereto, as guarantors, the lenders party thereto and Wells Fargo Bank, National Association as administrative agent and collateral agent (incorporated herein by reference to Exhibit 10.2 to the registrant's Current Report on Form 8-K filed with the SEC on June 1, 2026).</u>

CERTIFICATION

I, Mario Harik, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarter ended June 30, 2026 of XPO, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
